### EDUCATION:

1969 - 1972 ..... University of Oregon,  
Doctor of Philosophy in Curriculum and Instruction,  
Specialization in Curriculum-in-Education.  
1968 - 1969 ..... California State University, Los Angeles,  
Master of Arts in Educational Administration  
Administrative Services Credential  
1975 - 1976 ..... University of California, Santa Barbara,  
Multiple Subject & Single Subject Teaching Credentials  
1971 - 1975 ..... University of California, Santa Barbara,  
Bachelor's of Arts - Developmental Psychology

### CREDENTIALS:

Administrative Services Credential - California State University, Los Angeles, 1968  
Multiple Subject Teaching Credential - University of California, Santa Barbara, 1976  
Single Subject Teaching Credential - University of California, Santa Barbara, 1976

### PROFESSIONAL EXPERIENCE:

2001 - Present National Council for Accreditation of Teacher Education (NCATE) Board Member  
Visited, consulted, and reported on 3 universities (Colorado, Illinois, Missouri)  
1999 - Present Assistant Professor - University of Northern Iowa  
Teaching Fellowships in Education, Technology in Education, Change Teacher in Education, Classroom Computer Applications, Assessment Change Design, Managing Educational Technology Programs, Educational Media  
1990 - 1999 Visiting Professor in Far East University/Malaysia Ministry of Education - University Technology Malaysia/Universiti Teknologi Tun Hussein Onn (Batu Pahat, Malaysia)  
(Fall '98 and Spring '99)  
Teaching MTT 1511 Introduction to Pedagogy/Processes (Master Level)  
(Fall '98 and Spring '99)  
Workshops including Introduction to the World Wide Web, Assessment in the World Wide Web, Technology in the World Wide Web, Assessment in the World Wide Web, Assessment in the World Wide Web  
1992 - 1998 Managed the \$25,000 budget for technology at Post Laboratory School

## Creating a Professional Image

- Photographs
- Clarity of language throughout the portfolio
- Selection of artifacts
- Depth of reflections

## Portfolios

## Portfolios: Why?

- Encompass complexities of teaching
- Capture and advance what teachers know and can do.
- Promote professional development of teachers
- Evaluation occurs best in authentic contexts

### Standards Indexed

- Typically in notebooks with Standards tabs.
- Presented in a VERY linear manner.
- One artifact matches with only one standard.
- Shows the depth of fulfillment for each standard.

**Standards-Indexed**

**Standards-Referenced**

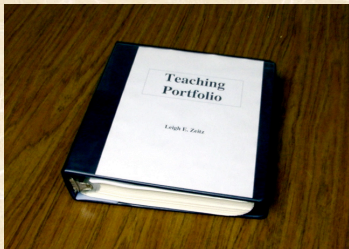

## Standards Referenced

- Artifacts are the heart of the portfolio.
- Artifacts can meet more than one standard.
- Electronic portfolios make this organization method possible through the use of hyperlinks.
- Evaluators can identify whether or not all of the standards are met in a non-linear method.

- ## Standards Referenced
- Artifacts are the heart of the portfolio.
  - Artifacts can meet more than one standard.
  - Electronic portfolios make this organization method possible through the use of hyperlinks.
  - Evaluators can identify whether or not all of the standards are met in a non-linear method.

# Paper Portfolio

A black and white photograph of a book titled 'Teaching Portfolio' by Ralph E. Ziegler. The book is positioned at an angle on a wooden surface, showing its front cover and spine. The cover is white with a black border. The title 'Teaching Portfolio' is printed in a large, bold, serif font, and the author's name 'Ralph E. Ziegler' is printed in a smaller font below it. The book appears to be a hardcover or a thick paperback.

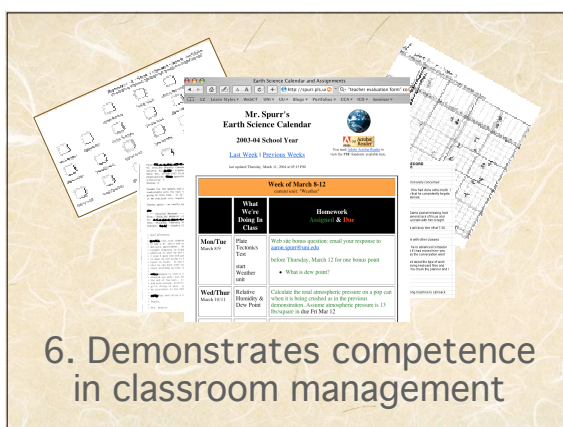

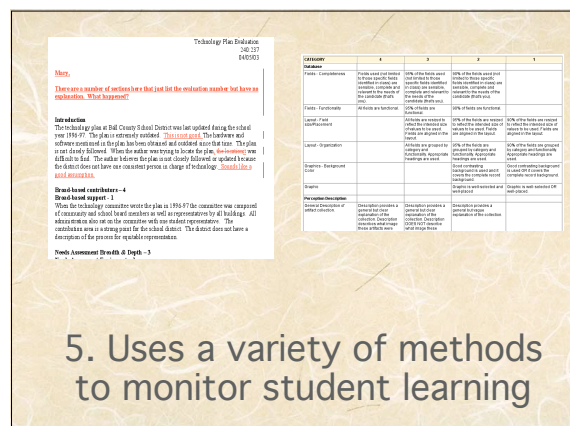

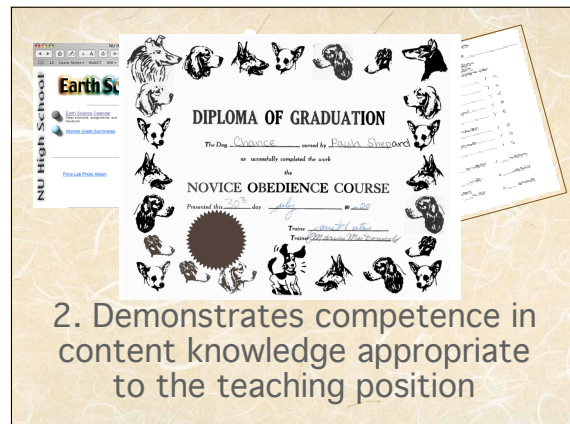

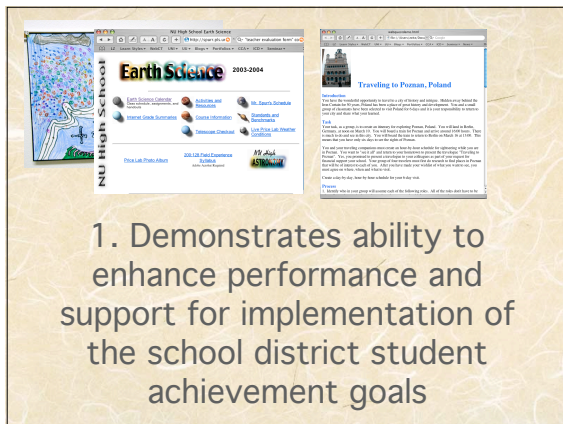

# Electronic Portfolio

A photograph showing a collection of items representing an electronic portfolio. In the center is a white binder with a black spine and cover, titled 'Teaching Portfolio' and 'TERRY L. JONES'. To its left is a VHS tape with a black label. In front of the binder is a CD-ROM in its jewel case, labeled 'Personal DB'. To the right of the binder is a small, clear electronic device, possibly a digital voice recorder or a small screen. All items are resting on a wooden surface.

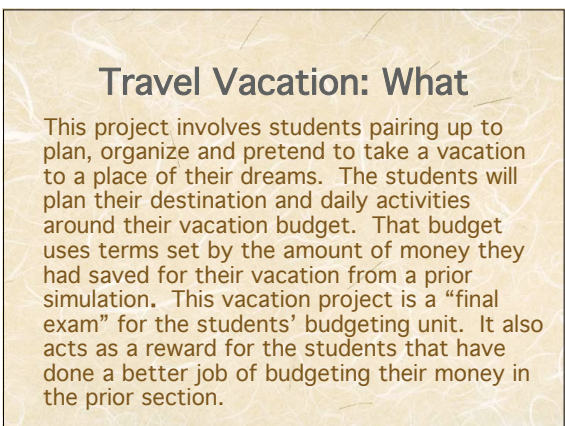

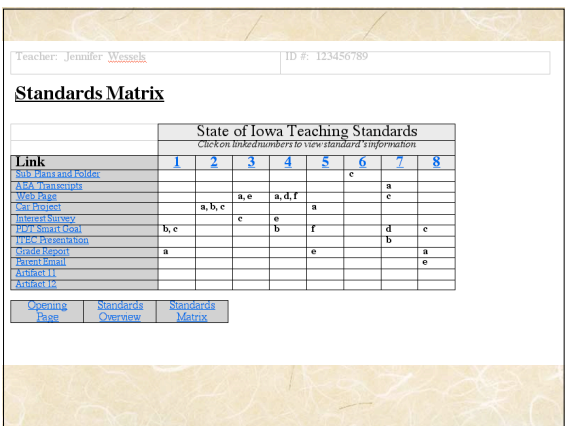

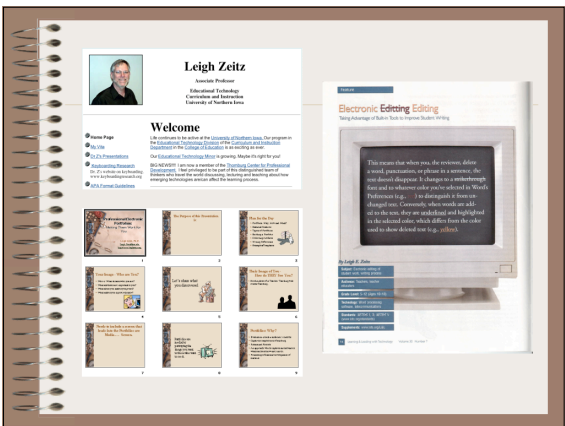

# Digital Portfolio

A CD-ROM case for a 'Teaching Portfolio' by Leigh E. Zeltz, resting on a wooden surface. The case is white with a black border. The text 'Teaching Portfolio' is centered in a black box, and 'Leigh E. Zeltz' is printed below it. The case is open, showing a CD inside. The background is a light-colored, textured surface.[illegible]

# Artifacts?

## Travel Vacation: So What

This project provides a variety of skill development activities. It is an ideal cross-curricular activity that involves research, math, computer and writing skills. Students work with partners so they build their interpersonal skills, planning skills, and organizational skills.

The students become quite involved in the project. I can feel the electricity as I walk through the classroom. I find a few groups who are not fully ignited until I meet with them. Unfortunately I have not found a way to quickly identify these groups and I need to learn how to do that.

## Travel Vacation: Now What

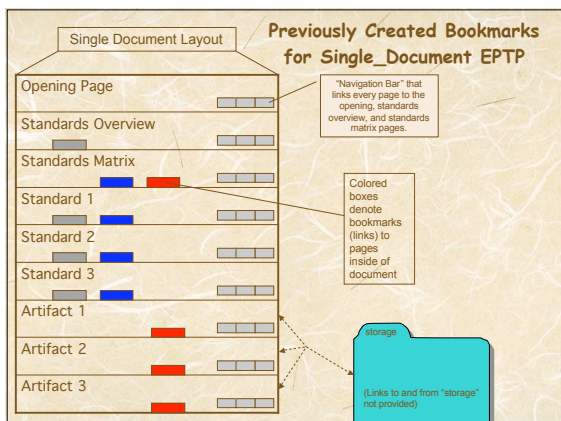

The total involvement of the students in this culminating cross-curricular project shows the value of such an activity. I plan to use it as a model for some activities in my other classes. I would like to revise it to allow a greater set of choices for students to create an end product that can use a range of the multiple intelligences. This is an area of development that will support the present curricular changes in our school.

## Organizational System?

- Simple AND Easy
- Short learning curve
- Emphasized the **Portfolio**, NOT NECESSARILY the **Technology**
- Standards-Referenced AND Standards-Indexed

## A Word Document . . .

- Simple
- Small learning curve
- Hyperlinked
- All one document

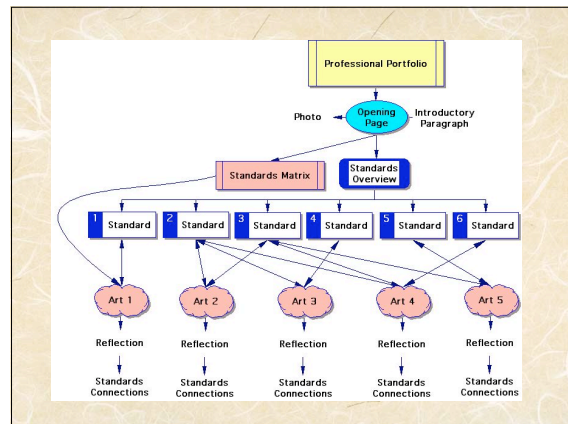

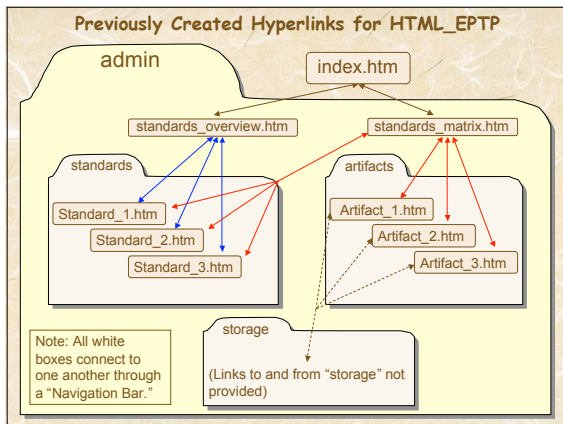

## HTML\_EPTP

### More information

- Organized like a website
- High individual learning curve in order to develop
  - Organization of template files must be maintained throughout creation in order for hyperlinks to function
- Hyperlinks already installed
- Allows for more freedom in design and "look and feel" based on skill level

### What differentiates an EPTP from other forms of portfolios?

- Standards-indexed & standards-referenced
- Efficiently displays connectivity between artifacts, standards, and reflections
- Easily navigated
- Displays an inherent technical prowess of creator
- Easy to transport and create multiple copies
- Comes in two versions to match your needs and technical skill level

### **EPTP:** Electronic Professional Teaching Portfolio
